

360Value Training – Course Summary (Virtual Classroom)

Course Description

360Value is a true component-based replacement cost estimating system for residential, commercial and agricultural properties. Students of this course will learn to utilize 360Values PushPin™ Technology to gather information related to the location, site/lot conditions, structure size, and construction type, to produce a detailed valuation of the cost to rebuild a structure. Students will also learn how 360Value bases its replacement cost valuations on Xactware's pricing database and methodology.

Course Requirements

Students of this course should meet the following requirements before attending class:

- Computer and Internet system requirements:
 - High-speed Internet connection
 - MS Internet Explorer 7+ (Web Browser)
 - Telephone within close proximity to computer
- Basic computer skills
 - Ability to comfortably navigate through Internet Explorer
 - Basic Windows and keyboard knowledge
- Knowledge of the property loss industry and terminology

Course Environment

This is a two-hour web training presentation and discussion, directed by a Certified Xactware Trainer. Students view the presentation via web conference and participate using their phone.

Skills and Objectives

Students of this course will learn how to:

- Write a replacement cost valuation
- Create a dynamic and accurate property value by using the following input methods:
 - Required question fields
 - Explicit answer shading
 - ISO PushPin™ Technology
 - iScore
- Use the Quality Grade features:
 - Wizard
 - Grade Calculator
- Generate 360Value Management Reports
