

Xactimate Sketch Roofing – Course Summary (Virtual Classroom)

Course Description

The Xactimate Sketch Roofing Virtual Classroom Training is designed for Xactimate users who need to create roofs using Xactimate Sketch. Students in this course will be taught how to effectively use the basic roofing tools in Sketch to create a roof that is accurate and professional in nature.

Course Requirements

Students of this course should meet the following requirements before attending class:

- Computer and Internet system requirements:
 - High-speed Internet connection
 - MS Internet Explorer 7+ (Web Browser)
 - Laptop with Xactimate installed and external mouse
 - Telephone within close proximity to computer
- Basic computer skills
 - Ability to comfortably navigate through Internet Explorer
 - Basic Windows and keyboard knowledge
- Knowledge of the property loss industry and terminology

Course Environment

This course is a two-hour, instructor led, web training session. Presentation and discussion are directed by a Certified Xactware Trainer. Students view the presentation via web conference and participate using their phone.

Skills and Objectives

Students of this course will learn:

- Creation of basic roofs such as Gables and Hips
- How to create Roof Tie-ins and Dormers
- Methodology used to create more complex roofs in Sketch
- Creation of Mansard Roofs, Flat Roofs with Parapet Walls, and Conical Roofs
